

SAKSHI PRAMOD PATIL

MCA STUDENT | DATA & AI ENTHUSIAST | PYTHON • SQL • MACHINE LEARNING

Chhatrapati Sambhajinagar | +91 8625052220 | patilsakshi9522@gmail.com

ABOUT ME

Motivated MCA student building a career in Data and Artificial Intelligence, with a foundation in Python programming, SQL, data analysis, machine learning, and data visualization. Familiar with data preprocessing, exploratory analysis, database concepts, and basic machine learning workflows. Interested in applying Python and AI techniques to solve practical problems, develop data-driven solutions, and continuously strengthen technical skills.

CORE SKILLS

Python & Libraries: Python, NumPy, Pandas, Matplotlib, Scikit-learn

Machine Learning: Linear Regression, Logistic Regression, K-Nearest Neighbors (KNN), Decision Tree, Random Forest, K-Means Clustering

Data Visualization: Power BI, Tableau, Interactive Dashboards, Slicers, DAX Measures

SQL & Databases: SQL Queries, Joins, Aggregation, Filtering, SQL Server, SSMS

Data Analysis: Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Data Preprocessing, Reporting

Programming: Python, Java, C++

Web Technologies: HTML, CSS, JavaScript

Design: UI/UX Design, Figma

Professional Skills: Communication, Problem Solving, Collaboration, Teamwork

PROJECTS

Document Classification & OCR System

Technologies: Python, OCR, TF-IDF, Scikit-learn, Machine Learning

- Designed a document-processing workflow to extract text from uploaded documents and prepare it for automated classification.
- Applied text preprocessing and TF-IDF feature extraction to convert document text into machine-learning features.
- Explored Logistic Regression, SVM, and Random Forest for document-type classification.
- Worked with structured and unstructured document data as part of an AI-based document processing workflow.

Data Analysis & Visualization Projects

Technologies: Python, SQL, Power BI, Tableau

- Performed data cleaning, transformation, exploratory analysis, and visualization on real-world datasets.
- Created interactive dashboards using Power BI and Tableau to present insights through charts, filters, slicers, and KPIs.
- Used SQL queries, joins, aggregation, and filtering to analyze and retrieve data.

EDUCATION

Master of Computer Applications (MCA) — Expected 2027

Deogiri College, Chhatrapati Sambhajinagar

Bachelor of Computer Applications (BCA Science) — 2025

CERTIFICATIONS

2025 - Tutedude

UI/UX — Learned the fundamentals of UI/UX design, including wireframing, user-centered design, and prototyping using Figma.

ADDITIONAL INFORMATION

Languages: English, Marathi, Hindi

Interests: Artificial Intelligence, Machine Learning, Data Analysis, Data Visualization

Hobbies: Dot Mandala Art, Craft, Reading, Dance, Teaching
